

# MOBILE POWER CAPABILITIES & SOLUTIONS OVERVIEW

**GENERAC**<sup>®</sup>

**MOBILE**

# THE GENERAC ADVANTAGE

With over 60 years of power innovation, Generac leads the industry by considering power from a unique perspective — yours. Support, collaboration and success are the results of partnering with Generac.

## PROVEN POWER

- Generac offers a wide range of durable diesel and gas-powered generator solutions, from 8kW to 3.25 MW
- Full mobile line of portfolio solutions for your business, including diesel and gaseous generators with prime ratings, light towers, heaters, pumps, water trailers, dust suppression systems and professional-grade portable power equipment

## NATURAL GAS TECHNOLOGY LEADER

- Generac is the unrivaled leader in gaseous power generation solutions, from residential and industrial standby to prime power generation
- Over 2 million natural gas generators installed and active

## STANDARDS AND REGULATIONS EXPERTISE

- Generac delivers innovative and reliable power while simultaneously maintaining compliance with ever-changing regulations, codes and industry standards

## PEACE OF MIND

- Generac-pioneered integrated paralleling solutions provide redundancy and reduce the chance of failure
- Generac's expert field service teams provide support and solutions at a moment's notice

# GENERATORS

## GASEOUS GENERATORS

By harnessing wellhead gas as fuel, our gaseous generators can minimize emissions issues on oil and gas worksites and provide the most cost-effective power available. Generac Mobile gaseous generators feature an innovative design that allows users to switch between natural gas (NG), liquid propane (LP) and wellhead gas. Generac is the global leader in gaseous power generation.

### Scalable Power

Most of our mobile generators come parallel-ready, enabling a scalable approach to power – parallel up to 32 units.

### Green

Our gaseous generators provide an environmentally sound and extremely cost-effective way to power operations.

### Fuel Flexibility

Designed to operate on natural gas, liquid propane or wellhead gas fuel, Generac Mobile gaseous generators offer ultimate versatility and efficiency in power generation.

## DIESEL GENERATORS

Generac Mobile diesel generators are configured to meet your needs, including choice of containment, cold weather packages and trailer options. Our generators are manufactured to deliver the reliable power you need – when and where you need it.

### Selection

Available in a wide range of power nodes, the choice is yours... or parallel units for ultimate power scalability.

### Versatile

Choose skid-mount or customize your trailer and take power to the most remote work sites.

### Customizable

Cold climate? No problem. We can outfit your generator to withstand the coldest weather.

# LIGHT TOWERS

## LED LIGHT TOWERS

Generac Mobile's durable LED lights are long-lasting and backed by a 5-year limited warranty. Because they consume minimal power, efficient LED lights cost less to run. They also have instant-on LED lights that allow for faster startups and less downtime.

### Quality Light

Crisp lighting that remains bright and true for the life of the tower.

### Focused

Focused light brightens your work area, not the neighbors.

### Efficient

LEDs consume nominal power, keeping your costs lower.

## ELECTRIC LIGHT TOWERS

Our vertical mast and compact light towers have revolutionized industrial mobile lighting. Easy to set up, operate and maintain, our light towers provide maximum lighting versatility.

### Efficient

No engine means no regular maintenance, and Generac® LEDs mean you'll never have to change a bulb again.

### Versatile

Use one or LINK two towers together, the linking capability allows for flexibility and versatility in lighting events and job sites. Lighting can be powered by utility power, another light tower or even a portable generator.

### Safe

LINKTower is powered by a standard 120V outlet - there's no engine, no fuel costs or harmful fumes.

# HEATERS

## FLAMELESS HEATERS

Flameless heaters provide safe and reliable heat for oil and gas, mining, construction, utility projects and more. Generac Mobile's flameless heat technology delivers heat without an open flame for use in hazard zone areas in which ignitable flames may be present. Generac Mobile flameless heaters have plenty of room for secure storage of duct and other tools.

### Safe

Safe to use in environments and applications where flames are restricted.

### Rugged

Withstands harsh environments, providing reliable heat.

### Effective

Provides a maximum heat rise of 180 degrees.

## INDIRECT FLAME HEATERS

Designed for optimal performance in the most extreme cold weather environments, our indirect flame heaters can be trusted to keep your worksite warm and productive. Indirect flame technology produces heat that can be safely ducted into tents, buildings and more.

### **Durable**

Heavy duty steel construction stands up to any environment.

### **Reliable**

Proven performance in some of the most extreme environments in North America.

## HYDRONIC SURFACE HEATER

Hydronic heaters are ideal for ground thawing, concrete pours and curing, frost prevention and emergency thawing applications.

### **Dynamic**

When every second counts, this tough heater thaws so you can get back to work.

# PUMPS & WATER EQUIPMENT

## TRASH PUMPS

Generac Mobile's trash pumps easily handle solids up to 3 in. (76.2 mm) in diameter, and operate for extended run times to ensure that your site is clean and ready for the next phase. These pumps feature a durable chassis and an optional sound attenuated enclosure (dry prime only) for quiet operation and maximum versatility that can easily go from road construction to neighborhood project.

### Powerful

Easily handles water and solids up to 3 inches in diameter.

### Durable

Steel roll cage makes these pumps hold up in the roughest conditions.

### Quiet

Optional sound attenuated cabinets reduce noise and enhance security.

## WATER TRAILERS & COMBO UNITS

Easy to maneuver and more efficient than traditional water trucks, our heavy-duty water trailers can be utilized to support a variety of construction-based projects. Featuring high-performance engines and powerful pumps, they are tough, reliable and easy to use. With 2" pumps, 500-gallon tanks, and multiple fill options, Generac Mobile water trailers can be trusted to support any project from cement cutting to a variety of landscaping endeavors.

### High Capacity

Large tanks provide plenty of water for your projects.

### Versatile

Combo units maintain your power, lighting, and water needs for days.

### Effective

Powerful pumps deliver water where you need it.

# OTHER PRODUCTS

## DUST SUPPRESSION

Generac Mobile dust suppression systems provide a better, more effective way of mitigating dust and unhealthy particulates. Our dust suppression systems provide even coverage, minimizing wasted water and water puddles. Designed to deliver effective dust reduction for a variety of applications, including demolition work, mining, aggregate production, recycling and environmental repairs, dust suppression systems also provide effective odor suppression and cooling. Generac Mobile offers efficient and effective dust suppression options for jobs big and small.

### Simple

Intuitive, easy-to-use design and controls won't slow you down.

### Effective

Innovative design delivers a fine mist to trap fine dust particulates.

### Adjustable

Vertical adjustments allow for precision in water coverage.

**GSA** Contract Holder

**Sourcewell**  
Formerly NJPA  
Awarded Contract  
Contract # 041719-GEN

## GOVERNMENT & MILITARY

As a General Services Administration (GSA) and Sourcewell contract holder, Generac Mobile has a history of providing dependable municipal and federal equipment and competitive pricing to municipal and federal agencies in the United States and abroad. Our light towers, generators, pumps and combination units have been used in recovery efforts across the U.S. and its territories. Our ongoing development of new products continues to support the many federal government agencies and branches of the Armed Services across our nation.

### Rugged

Engineered and developed to withstand the harshest conditions, these American-built products continue to provide reliable power to our military.

### Qualified

As a GSA contract holder, product inventory levels are maintained for rapid response.

### Compliant

Products meet or exceed requirements of municipal and federal agencies.

# GENERAC PRO

**GENERAC**<sup>®</sup>  
PRO

## GENERAC PRO PRODUCTS

Generac knows you need tools to maintain your home or commercial exteriors and landscapes. That's why we designed Generac PRO – a complete line of professional-grade products designed and engineered specifically for commercial and rental applications.

### Powerful Performance

Powered by the heavy-duty Generac G-Force family of engines, Generac PRO equipment is designed for even the toughest jobs.

### Durable

Tough jobs need equipment built for any circumstance, for regular or rigorous use. Generac PRO provides maximum performance with minimal maintenance.

### Reliable

Whether it's an afternoon, weekend, or ongoing job, your machine will be reliable. Tungsten carbide, laser-cut steel and high-carbon/high-chromium forged alloy perform your heavy-duty needs.
